

Milan Army Ammunition Plant

BRAC 2005 Recommendation:

BRAC 05 recommendations transform Milan Army Ammunition Plant into a multi-functional Munitions Center of Excellence that fulfills total munitions capability through Munitions Production, Munitions Demilitarization, Munitions Storage and Distribution and Munitions Maintenance. The goal is to support Joint readiness by producing, maintaining, storing and delivering in a timely manner, the munitions needed to support the war-fighter. This effort was accomplished through the elimination of excess and redundancy within the industrial base. Costs identified to modernize remaining infrastructure will allow us to move out of a Cold War environment into one that is capable of supporting 21st century requirements for the manufacture of artillery, bombs, Energetics, medium caliber, missiles, mines, mortars, rockets, pyro/demo, small caliber, tank and torpedoes.

Gains:

- 155MM ICM Artillery function and the 60MM, 81MM, and 120MM Mortar function from Kansas Army Ammunition Plant
- 105MM and 155MM ICM Artillery, MLRS Artillery, Hand Grenades, 60MM and 81MM Mortars functions from Lone Star Army Ammunition Plant

Losses:

- None
